Claim Rejections - 35 USC § 112

1. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

2. Claims 1-16 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

- a. Claims 1-16 are vague and indefinite because it is unclear whether or not the plurality of nucleic acid probes are complementary to the different overlapping regions of the target nucleic acid since in figure 1, it appears that the plurality of probes hybridized to the different overlapping regions of the target nucleic acid. Clarification is required. In addition, in step c) of claims 1 and 6, it is unclear how the Δt_m is determined. Does the terminology mean that the Δt_m is separately determined between two probes on the target nucleic acid and between the same two probes as hybridized to the target nucleic acid on the control nucleic acid or the Δt_m is

determined between one probe on the target nucleic acid and the same probe as hybridized to the target nucleic acid on the control nucleic acid. Clarification is required.

b. Claims 12-16 are vague and indefinite because it is unclear how Δt_m is determined in claim 12. Does the terminology mean that the Δt_m is determined between one probe of said first set of probe and one probe of second set of probes. Clarification is required.

3. No claims are allowable.

4. Claims 2-16 would be allowable if rewritten to overcome the rejection(s) under 35 U.S.C. 112, 2nd paragraph, set forth in this Office action and to include all of the limitations of the base claim and any intervening claims.

5. Claim I would be allowable if rewritten or amended to overcome the rejection(s) under 35 U.S.C. 112, 2nd paragraph, set forth in this Office action.
